From the President...

In this day of high costs for education and ambiguities in academic programs, it is important for Fort Wayne Bible College to declare clearly what we are about and why we feel worthy of the confidence of students and supporters and friends.

We have designed a dynamic college education that focuses on the preparation of individuals for the Lord's service in today's world. To achieve this end, all of our students take a double major — one in Bible and one in a selected area of special interest. This second major sharpens the God-given talents and abilities of the student.

Our Statement of Mission expresses our philosophy of education. Everything we do — both in and out of the classroom — is molded by these concepts. Its effect is to create a living, learning community that will help us become leaders with a servant attitude.

We welcome you to share in our vision.

Cordially in Christ,

Probation/Non-approval/ Appeals

An applicant whose file is determined by the Admissions Committee to be sub-standard in one or more of the areas listed among the Admissions Requirements may be approved on academic probation or academic observation. Specific requirements for enrollment exist in both classifications and will be communicated in writing to the applicant when the decision of the Admissions Committee is made.

Applicants who have been denied admission to Fort Wayne Bible College or who have been approved on academic observation or probation, may appeal the decision of the Admissions Committee. All appeals must be submitted in writing to the Director of Enrollment within 60 days of the date which appears on the applicant's letter of notification. Upon receipt of the written appeal, the Admissions Committee will review the appeal and notify the applicant of their decision within 30 days.

Enrollment Deposit

All approved applicants to Fort Wayne Bible College are required to send a \$100 enrollment deposit within 30 days of their notice of acceptance. This is an advance payment toward the cost of the student's first semester of study at the college and guarantees access to campus housing and/or class space. This deposit is refundable until

July 1 or until the student has received financial aid offers from all colleges to which he/she has been admitted, whichever occurs first. Students applying for admission for the spring semester of the academic year may have their enrollment deposit refunded until November 1 with all other criteria being the same.

Reenrollment of Former Students

Students who voluntarily discontinued their studies at the college for at least one semester must file an application for reenrollment through the Enrollment Office. For more details, contact the Director of Enrollment. Students who wish to reenroll who were dismissed from the college for academic or personal reasons must secure permission from the appropriate governing body before submitting their application.

Transfer Students

The College grants transfer credit to students who have attended other accredited institutions and have completed acceptable work at those institutions. Generally, courses completed with a grade of "C" or better and which are compatible to the student's major at FWBC are acceptable for transfer credit. All students are required to complete at least thirty (30) semester hours of course work, excluding correspondence work, at FWBC in order to graduate. Included in the 30 hours is a minimum of seven (7) hours of Bible and/or theology courses as determined by the program director. For specific information on transfer credit, contact the Registrar's Office.

Foreign Students

Fort Wayne Bible College admits foreign students to all of its degree programs and has been approved by the United States Department of Justice since 1937 to do so. In addition to the normal admissions procedures and requirements, foreign students must submit scores of the Test of English as a Foreign Language (TOEFL), if English is not their first language. Upon approval, foreign students must place the equivalent of one year's tuition costs in U.S. dollars on their account and show proof of the necessary resources for round trip travel to and from their home to Fort Wayne. The Director of Enrollment will, upon receipt of this information, send the student an authorized I-20 form for an F-1 student visa, to enroll at Fort Wayne Bible College.

FINANCIAL AID & FEES

FINANCIAL AID INFORMATION

Purpose and Philosophy

The College recognizes the importance of a quality education at an affordable cost. The primary objective of the Financial Aid Office is to provide financial assistance as a supplement to the maximum contribution of the student and his/her family in meeting educational costs. The College recognizes that each student and family situation is unique. Therefore, each application is individually and carefully reviewed in the Financial Aid Office.

Application for Financial Aid

Everyone is eligible to apply for financial aid and all are strongly encouraged to do so. A complete application file for financial aid consists of the following:

- 1) A Fort Wayne Bible College Application for Financial Aid
- 2) A Needs Analysis document such as the Financial Aid Form (FAF)
- 3) Any other information as requested by the Financial Aid Office.

A packet containing all of the necessary forms and information needed is available from the Financial Aid Office in late December or early January preceding the next academic school year. **Completed applications received in the Financial Aid Office before March 1st for the next school year will be given priority consideration.** Applications after March 1st are welcome and financial aid is awarded on a first-come-first-served basis as long as funds remain. All personal and financial information presented to the Financial Aid Office is kept strictly confidential.

Eligibility for Financial Aid

Students who have presented their application materials to the Financial Aid Office by the priority date, March 1, will

receive notification of eligibility by April 15th. Students who are eligible will at that time be presented an award "package." The financial aid package is a combination of financial sources which may include scholarships, grants, loans and/or employment.

Students will receive an award letter indicating these sources of aid and the amounts offered to them. They must then return their signed award letter within two weeks indicating their preference about each of the awards offered. When students have returned their completed award letters and after they have actually enrolled in classes, the awards which have been accepted for that semester will be deposited directly to their student accounts, except for college work study monies and national direct student loans.

College work study monies will be paid as the student works for them. National Direct Student Loan funds will be issued by the Business Office to the student. Upon endorsement of the check, the monies will be applied directly to student accounts. The financial aid "package" may consist of any of the following:

Scholarships, Awards, Grants, Loans

FWBC Scholarships

The following scholarship funds have been established at Fort Wayne Bible College as endowments. Each of these scholarships has specified criteria which a student must meet in order to be considered as a candidate. Some of these criteria include a student's major, academic achievement, attitude, trust, and standing. Candidates who meet the criteria may be selected by a faculty committee as recipients of these awards which range in value from \$100 to \$1500 per year. The scholarships are awarded during a special chapel program each fall. These scholarships are not on an application basis, but may be part of a financial aid package.

Indiana State Monetary Awards

Students whose parents are Indiana residents should apply by March 1st for Indiana state monetary awards. The amount of these awards may vary depending on the student's demonstrated need during the academic year. The awards generally range from \$200 to \$2425. These awards are renewable by application for four years as long as the student continues to show financial need. These awards are applicable to full-time students only.

Federal Grants and Loans

The Pell Grant, formerly called the Basic Educational Opportunity Grant, is a program of federal grants to undergraduate students only, authorized by the educational amendment of 1972. Determination of eligibility to receive assistance under this program is *NOT* made by the Financial Aid Office. During the 1984-85 academic year eligible applicants received awards ranging from \$250 to \$1900. Award schedules are subject to change depending on federal appropriations. Grants are applicable to all full-time and some part-time students.

Supplemental Educational Opportunity Grants

Grants of up to \$1000 per year are available to students with exceptional financial need. These grants may be annually renewed by submitting a financial aid application.

National Direct Student Loans

Through a National Direct Student Loan sponsored by the federal government and administered by the College, students may borrow a maximum of \$3000 during the first two years with four-year total not exceeding \$6000. The amount of an award is based on financial need. The loan is deferred, interest free, while the student is in school. Repayment

of the loan must be completed within 10 years beginning six months after the student graduates or leaves school. The current interest rate is 5%.

Guaranteed Student Loans

The College students enrolled at least half-time may borrow from a participating bank or other financial institution up to \$2500 per academic year. The aggregate loan amount an individual student may borrow is \$12,500. The loan is deferred, interest free, while the student is in school. Six months after graduation or leaving school, repayment of the principle begins with an interest rate of 7% to 9%. Additional information can be obtained from the Financial Aid Office.

Auxiliary Loans to Assist Students, Independent Students Only

These loans are available through most banks and other lending institutions. Depending upon the availability of funds, independent undergraduate students enrolled for at least 6 credit hours per term, may borrow under this program. Students may borrow up to \$2,500 per year. The aggregate amount an independent student may borrow is \$12,500.

Although eligibility for this loan is not based on financial need, the amount borrowed during the academic year may not exceed the difference between the student's expense budget and other financial aid received, including guaranteed student loans.

Currently this loan bears a 12% interest rate which starts compounding on the date the loan is dispersed. Repayment of the loan also begins on the date the loan is dispersed with first payment due within 60 days of the loan's disbursement. Maximum repayment period for loans borrowed under this program is 10 years. Additional information and applications are available at most banks and other lending institutions.

Parents Loans for Undergraduate Students

These loans are available through most banks and other lending institutions. Depending upon the availability of funds, parents of the dependent student may borrow

up to \$3000 per year per dependent student enrolled for at least 6 credit hours per term. The aggregate amount a parent may borrow for a dependent student is \$15,000. Although eligibility for this loan is not based on financial need, the amount borrowed during the academic year for a student may not exceed the difference between the student's expense budget and other financial aid including guaranteed student loans.

Currently this loan bears a 12% interest rate which starts compounding on the date on which this loan is dispersed. Information regarding repayment of this loan is available from the lender. Additional information and applications are available from banks and other lending institutions.

Employment Opportunities

Fort Wayne Bible College recognizes that income from part-time jobs is essential for many students. All students wishing to work for the college must first apply for financial aid through the Financial Aid Office to secure college work/study authorization. Fort Wayne Bible College receives grant support to subsidize a federally sponsored work/study program for students. Work/Study Employment is based on financial need. This program supplies funds for employment on campus. Students may work up to 15 hours a week when school is in session. Total earnings may not exceed the amount to meet educational expenses.

Maintaining Eligibility For Financial Aid

A student who receives financial aid is responsible for the following:

- 1) To use financial aid awarded for expenses related to attendance at Fort Wayne Bible College;
- 2) To inform the Financial Aid Office of any financial aid awards received from sources other than Fort Wayne Bible College;
- 3) To provide requested verification documents promptly. A student who

provides inaccurate information at any point will be considered ineligible for financial aid;

- 4) To read all letters and use all sources of information made available to help the student understand information contained in them. It is expected that a student knows the appropriate information whether or not he or she has read the materials;
- 5) To maintain satisfactory academic progress in the student's chosen course of study at Fort Wayne Bible College.

Failure to meet these responsibilities may disqualify the student from eligibility for financial aid.

Satisfactory Academic Progress

Every student receiving financial aid must be making satisfactory academic progress toward a degree or certificate. A student is considered to be making satisfactory academic progress when he/she is meeting minimum qualitative and quantitative standards and is maintaining a good academic standing or if he/she has been placed on "Financial Aid Probation" by the Financial Aid Committee and/or the Financial Aid Administrator.

For a student completing a total of 1 to 27 credit hours, good academic standing is defined as maintaining a minimum cumulative grade point average of 1.75. For a student completing a total of 28 credit hours or more, good academic standing is defined as maintaining a minimum cumulative grade point average of 2.0.

A major area of study is declared by the student upon the completion of 36 credit hours of study.

The percentage of credit hours being completed toward a degree is based on enrollment status and degree objectives; i.e., a student enrolled in a 128 hour bachelor degree program must complete $1/12$ or 10.67 (11) hours of academic work each semester. The same student enrolled one half time must complete $1/24$ or 5.34 (6) hours of academic work each semester. Course incompletes, course withdrawals, course audits, and courses failed will not count toward hours completed.

A student's academic record will be reviewed following each semester to determine if satisfactory progress has been achieved. A student who fails to meet minimum qualitative and quantitative standards toward satisfactory academic progress will be placed on financial aid probation. During this time of probation, the student's eligibility for aid will continue and the student will be expected to meet the minimum standards of satisfactory progress.

A student on financial aid probation who fails to meet the minimum standard of satisfactory academic progress will have his or her academic record reviewed by the Financial Aid Committee. The Financial Aid Committee will

then: 1) continue financial aid probation for one semester if the student has made reasonable progress toward the minimum standards, or 2) suspend the student's financial aid eligibility.

A student whose aid eligibility has been suspended could attain the minimum level of satisfactory academic progress by attending post sessions, attending the subsequent semester, or by completing correspondence courses. No financial aid will be available to this student during these enrollment periods and enrollment, as at least a half-time student, during a regular semester will be considered toward the maximum time framework of aid eligibility.

A student whose aid eligibility has been suspended will have his/her aid eligibility reinstated automatically in the subsequent semester upon meeting the minimum standards for satisfactory progress. For more details on maximum time framework, satisfactory academic progress, and appeal procedures for aid eligibility suspension, contact the Financial Aid Office.

Two other important points: 1) one must reapply for aid every year as it is not automatically renewable, and 2) preference for financial aid is given students who enroll on a full-time basis of at least 12 credit hours each semester.

The College offers three meal plans. Meal Plan #1 entitles the student to 20 meals a week. Meal Plan #2 entitles the student to any 14 meals a week. Meal plan #3 entitles the student to any 10 meals a week but is not valid for Saturday evening or Sunday noon meals. Additional meals may be purchased at cafeteria cash register prices.

The dining room radio and stereo are to provide relaxing background music. Students are allowed to use this equipment only with the permission of the Director of Food Services.

Student Employment

The College provides a student personnel office on the first floor of Witmer for students desiring either on- or off-campus employment.

Bookstore

Bethel Publishing is under contract to provide textbooks, school supplies, and other items needed for campus life. The bookstore is in the lower level of Witmer Hall.

Postal Service

The College provides all students with a post office box in the lower level of Witmer Hall. Questions regarding this service are to be directed to the Mail Room Supervisor in the lower level.

Approval for all campus mailbox inserts is to be secured from Student Development

before arranging with the Mail Room Supervisor for distribution.

The College Postal Service will forward *only first class mail*. Students are responsible for sending change of address notices to magazine publishers. Unclaimed magazines will be disposed of by the Mail Room Supervisor.

Student Health Services

Registered nurses are available on campus to relate to student health. (Hours are posted at the Student Health Center.)

Once each week the College physician is on campus. Students needing to see him should arrange for appointments through the nurses. There is no cost to see the doctor when he comes to campus. Appointments at his office are charged directly to the student. There is a charge for prescriptions.

Insurance

Information explaining the insurance program is sent to each student during the summer, along with a response card that is to be filled out and returned to the College by the date indicated in the correspondence. All students enrolled for eight or more hours are eligible and required to participate in the student insurance program unless evidence of other comparable insurance is furnished. The coverage includes basic hospitalization and medical insurance on a year-round basis. Physical education, intramural sports, and varsity sports are also covered.

In any case where a doctor's treatment is administered for a specific illness or accident, the student is responsible for paying the initial \$15.00. Any amount beyond that will be covered by school insurance (up to the limit of benefits delineated in the policy). Each illness or accident is considered a separate claim. In cases of repeated treatment for the same illness, insurance coverage continues until treatment has been completed (up to the limit of benefits delineated in the policy). To claim insurance coverage, the student is to submit any or all bills to the Student Development Office. Questions concerning coverage and claims will be answered in the Student Development Office.

STUDENT SERVICES

Character Development

Assisting students in the development of Christian character is one of the objectives of the College. The Character Development Evaluation is designed to identify potential problems as early in the student's college career as is possible. The Taylor-Johnson profile and the MMPI inventory are used to identify possible areas of need.

During the sophomore and junior years, program directors, faculty members, Student Development directors, Christian Service directors, and residence directors evaluate students relative to progress in Christian character development. Student Development personnel confer with evaluators to ascertain appropriate follow-up measures. No student in the final year is to be barred from graduation on the basis of character development except in cases involving suspension or dismissal or by action of the Faculty Executive Committee.

Church Service and Chapel Involvement

All students taking 8 or more credit hours are expected to attend the following services:

Sunday service: Morning and Evening

Chapel: Monday, Tuesday, Thursday,
Friday (10:00-10:35 a.m.)

Thirty Minutes: Wednesday (10:00-10:35 a.m.)

All services of the Fall and Spring Spiritual Emphasis

Spiritual Emphasis Morning once a month (8:30-11:30 a.m.)

All students taking 7 or less credit hours who have accumulated 28 or more credits are expected to attend Sunday morning and evening services. Students will be asked to complete a monthly church attendance report on a form provided in their mailbox by Student Development.

Discipline

Disciplinary action is viewed as a means of guiding students toward Christian responsibility and maturity. Since such action does not affect the majority of students, details on procedures and appeals are found in the student policy manual available in Student Development offices and at the Library desk.

Vacation Periods

Four vacation periods are scheduled by the College during the school year. Fall, Thanksgiving, Christmas (semester break), and Spring Break. Room and board charges include Fall and Thanksgiving Break. (No meals are served Thanksgiving Day.) Students who find it necessary to remain in town must procure off-campus housing between first and second semester and during Spring Break. Exceptions are handled by Student Development on an individual basis with a written application. The room charge is \$5.00 per night.

Restricted Items

Incense, firecrackers, and candles are prohibited in College housing due to insurance restrictions and fire prevention. Unlit candles may be used for decorative purposes. The use of electrical appliances is limited because of sanitation, safety, and circuit overload. Hot plates, refrigerators, TV sets, and sun lamps are not permitted. Other than aquatic species, pets are not allowed.

Cooking is not permitted in the dorm. Irons, popcorn poppers, and hot pots are to be used only in laundry rooms and designated areas.

Dormitories

Residence Directors:

There is a Residence Director available on campus at all times in order to assist students, to grant permissions, and to resolve emergencies. If the student's own Residence Director is not available, another Residence Director may be contacted.

Student Advisers:

Student Advisers are upperclass students selected because of their desire and ability to serve fellow students. As a residence hall staff member, the Student Adviser serves as an assistant to the Residence Director and acts as a communicator and facilitator of ideas and activities in his/her living unit.

Housing For Single Students

All single students taking 8 or more credit hours are to live in a campus dorm if not living with parents. Exceptions are handled by Student Development on an individual basis with written application.

Housing For Married Students

Applications for on-campus apartments may be made through the Director of Personnel. Since there is a limited number of these apartments, the College also maintains a list of available off-campus apartments in the Business Affairs Office.

Vehicle Registration

All motor vehicles owned or operated by students must be registered at the beginning of each semester. This includes cars which are parked on nearby streets as well as cars which are only rarely driven to campus. The act of registering as a Fort Wayne Bible College student obligates the student to abide by College policies while on or in the neighborhood of the campus. Registration stickers, secured from the Director of Personnel, are to be displayed on the right side of the rear bumper.

Due to limited space, all freshmen, sophomores, students on academic probation and off-campus students are to park either behind the Library or Witmer Hall.

Marriage

Students are not to marry during the semester.

Student Records

Information is maintained in the following offices for each student:

Academic	Registrar's Office
Finances	Business Office
Christian Service	Christian Service Office
Personal and Cocurricular	Student Development Office

The College follows federal regulations concerning the availability and security of these records. Students wishing to see their material may make their request at the appropriate office. Confidential material contained in these records is not released without the student's consent.

GENERAL INFORMATION

Registration

Students register for each semester and summer post sessions on the dates specified in the academic calendar of the college catalog. Students may contact the Registrar's Office for information on courses offered and registration details.

Late Registration

Only in exceptional cases will permission for late registration be given. No student may be enrolled after the completion of the first full week of classes. A late registration fee will be assessed.

Class Attendance

Regular class attendance is expected. Each professor will determine his/her own policy for class cuts and absences and will clearly state this policy in each course syllabus. All students are responsible to comply with the policies as stated in the syllabus for each course in which they are enrolled. See the student handbook for more information.

Student Load

In general, an average of 16 hours per semester is necessary in order to complete a bachelor's degree in four years. To be enrolled any hours in excess of this may be granted to students of superior ability through special permission of the Registrar. For the first year, a maximum load is 17 hours. The minimum number of hours to be considered a full-time student is 12 hours. While audit and correspondence courses will be considered in determining the maximum course load for a student, they will not be counted in determining full-time enrollment.

Students on academic probation are advised to carry a reduced number of credit hours.

Auditing

Students wishing to take a course without college credit and without the responsibilities of normally required assignments, may do so as an auditor. No permanent record is maintained in the Registrar's Office and no transcripts are

issued. Auditor's tuition fee is one-half the regular tuition rate.

Students wishing to take for credit a course begun as an auditor must change their status at the Registrar's Office within the first week of the semester.

Continuing Education

The Department of Continuing Education provides students with the opportunity to earn college credit through evening courses and correspondence courses. Credits earned in this manner may be applied toward degree programs.

Also the department offers several non-credit opportunities for those who want to study a book of the Bible, learn a ministry skill, or examine a topic from the Christian viewpoint. Evening classes, week-end seminars, and special workshops are to help the non-credit students accomplish their goals.

For more information, contact the Department of Continuing Education.

Correspondence Studies

Any student enrolled at the college may also take courses through the Department of Correspondence Studies. A maximum of 32 credit hours may be earned by a student toward a bachelor's degree (10 hours toward an A.A. degree) if approved by their faculty adviser and the Registrar. Correspondence work, however, does not apply toward the minimum thirty hours of resident work required for graduation.

For further details on the correspondence studies program see page 76 of this catalog.

Course Change and Withdrawal

All schedule changes must be made through the Registrar's Office. No schedule change is complete until the drop/add form has been signed by the teacher and returned to the Registrar's Office by the student. A course may not be added to a student's schedule any later than the first full week of the new semester. Courses dropped during the first two full weeks of the semester will not be recorded on the student's transcript. Beginning the third week through the tenth week, all courses dropped will be recorded "W" (Withdrew). After the tenth week, changes must be approved by the Registrar. Any course dropped during this period of time will be recorded either "WP" (Withdrew Passing, no penalty) or "WF" (Withdrew Failing, with grade penalty). Any course dropped within the last two weeks of the semester is recorded with an "F" grade.

Veteran's Benefits

Because we are an approved college for the training of veterans, war orphans and children of totally disabled veterans are eligible to receive educational benefits. Students eligible for these benefits should apply to the Veterans Administration for a Certificate of Eligibility and Training prior to enrolling at FWBC. At the time of registration, notify the Registrar's Office in order that proper certification of enrollment may be made to the Veterans Administration.

Official Transcripts

The Registrar keeps on file the permanent record of all credits earned by each student. Official transcripts of a student's academic record will be released upon request, providing the student has properly cleared from the College. A fee of \$2.00, payable in advance, is charged for each transcript.

Withdrawal from College

The college regards the registration of a student as a contractual agreement. For this reason, special procedures need to be followed

in the event a student withdraws from college. Any student considering withdrawal after the beginning of classes initiates the process by requesting a Withdrawal Clearance form from the Student Development Department. Withdrawal is not official or final until this process is completed.

Overseas Service

Students participating in an approved program of short-term missionary service under a recognized missionary agency may earn college credit in missions. For additional details, write to the World Mission Program Director.

Foreign Student Program

Since the College is a member of the Associated Schools of the American Institute of Holy Land Studies, students who participate in the program of the Institute in Israel will be given academic credit in such amount as may be approved by the faculty. Both graduates and qualified seniors may be admitted to the program of the Institute.

ACADEMIC INFORMATION

Repeating a Course

In the event a course which is required in a degree program is failed, the student must repeat the course. "D" grades may be repeated with the approval of the student's faculty adviser and the Registrar. Whenever a course is repeated on a credit basis, the last grade and credits earned completely replace the previous grade in computing grade point averages; however, all entries remain a part of the student's permanent academic record.

Incomplete Work

Permission for extension of time beyond the end of the semester for incomplete work is granted by the Academic Affairs Committee only in cases of illness or emergency. Written requests should be submitted to the Registrar. At the end of the extended time, grades are computed from the completed work.

Course Cancellations

The College reserves the right to cancel any course in which fewer than ten students are registered and to make any schedule alterations deemed necessary.

Student Classification

Freshmen:	Those who have completed less than 28 hours.
Sophomores:	Those who have completed 28-61 hours.

To be eligible to continue as a student in good standing, freshmen, who have completed less than 28 hours of credit, must maintain a minimum GPA of 1.75. All other students must maintain a minimum GPA of 2.00.

Academic Probation

Students whose GPA falls below the minimum stated will be placed on academic probation. Students on probation may be suspended or dismissed after one semester from the time placed on probation if they do not make substantial improvement. All decisions and appeals are the responsibility of the Academic Affairs Committee.

Honors

At the close of each semester the Registrar's Office publishes a Dean's List of all students who were enrolled for at least 12 hours and who achieved a grade point average of 3.35 or higher for the semester just ended.

Graduating seniors are awarded scholastic honors based upon the cumulative grade point average through the first semester of the senior year. To be eligible for these honors students must have completed at least 60 hours toward the Bachelor's Degree at Fort Wayne Bible College. All courses, whether transferred from

another college or taken on campus, leading toward the completion of a degree will be used in computing the G.P.A. Honors will be given according to the follow-ing minimum grade point averages: “cum laude” for 3.35, “magna cum laude” for 3.65, “summa cum laude” for 3.85.

A limited number of seniors may be elected by the faculty to Delta Epsilon Chi, the honor society sponsored by the American Association of Bible Colleges, and/or for listing in Who’s Who Among Students in American Universities and Colleges or the National Dean’s List.

Purpose

The purpose of the Christian Ministries Management program is to prepare people who will serve in managerial, financial, and secretarial positions in churches and church-related organizations.

In contrast to other non-profit organizations, the Christian organization exists to fulfill the Great Commission given by Jesus Christ (John 20:21, Acts 1:8). Christian Ministries Management is a program which focuses on the roles of Christian organizations through application of business and managerial procedures governed by the context of Biblical commands, principles, and ethics.

It is necessary to understand that all organizations may be viewed as businesses regardless of their mission and orientation. It is also true that Christian organizations are a specific type of business organization and do not operate in a vacuum. Rather, they interface with other business organizations on a regular basis. In order to develop a curriculum of Christian Ministries Management some emphasis will be given to the broader context of business.

Objectives

The Christian Ministries Management program prepares people who are able

- 1) to identify the basic principles, issues, goals, and terminology of business related to economics, finance, management principles and behavior, law, information systems, and secretarial science;
- 2) to demonstrate the application of management principles from study of management skills, principles, and

behaviors through practica supervised by the Christian Ministries Management program;

- 3) to integrate Christian principles into every aspect of their ministry as managers in Christian organizations;
- 4) to identify the characteristics of the ever-changing environment in which the Christian organization operates;
- 5) to understand the role of the Christian organization in both national and international contexts; and
- 6) to pursue, in accordance with their personal goals and abilities, graduate studies related to Christian Ministries Management.

PROGRAM IN MUSIC

Jay Platte, Director

Purpose

The curricular programs in music expose all students to aesthetic musical expression, train students whose chosen vocations will utilize musical skills, and prepare musicians who are committed to Christ to minister through music in the church and church-related agencies, the school, and the community. Such preparation begins with a foundational understanding of the mandates of Scripture. (Genesis 1, Psalm 149, Colossians 3:16 & 17, Philippians 4:8)

Objectives

All students will identify the unique and enriching role of aesthetic musical expression, whether they are enrolled in degree or continuing education programs; involve themselves in meaningful musical experiences; state the Biblical basis of music; and know the importance of music as an expression of worship and as a ministry which can help build up the Church.

All graduates using music in their intended vocations will exhibit knowledge, skills, attitudes, and values which will enable them to successfully function musically in the role they have identified.

All graduates with a major or minor in music will have developed competencies in musical performance, analysis, composition, and repertory. These competencies will further knowledge, skills, attitudes, and values so as to enable the graduates to be servant-leaders in the church, school, home, and community by administering, by performing, and/or by teaching.

David D. Biberstein, Director

Purpose

The program in Pastoral Ministries exists for the purpose of (1) introducing pastoral distinctives to all students, (2) producing supplemental courses for students of other professional programs, and (3) training and equipping those men and women who have been sovereignly called and have been given spiritual gifts for senior or associate pastoral ministry in either the Missionary Church or in other denominations and fellowships.

The office of pastor is part of the legacy left to the Church by Jesus Christ. Specifically He laid the foundation for this position by saying, "I am the Good Shepherd" and later challenged Peter to "feed my sheep." Paul then developed the office more definitively by introducing terms like elder, bishop, and overseer to indicate the identity of the primary leader of the local church. (1 Timothy 3; Titus 1:5-9; and Acts 20:17-28) Paul shares in Ephesians 4:11 that the Pastor-Teacher has been uniquely called of God to fulfill the "shepherding" task within the Church.

A clarification of the pastoral task is set forth by the following shepherding elements: (1) feeding — proclamation that leads to edification; (2) caring — visitation that leads to encouragement; (3) nurturing — counseling that leads to problem-solving in crisis situations; (4) managing — administration that leads to positive direction.

Objectives

The objectives of this program are to prepare students who can

- 1) identify and solidify a sense of call to the pastorate;
- 2) demonstrate a servant-leader attitude and a pastor's heart in relationships with

parishioners, colleagues, and local church leaders;

- 3) think analytically and creatively in relation to pastoral issues, duties, and procedures;
- 4) integrate the role and functions of the pastor with the concepts, principles, and values learned in Biblical and general studies;
- 5) preach and teach the Bible effectively in oral and written form;
- 6) reflect competency in handling the basic organizational, clerical, and managerial responsibilities of the pastorate;
- 7) evidence rudimentary skill in analyzing crisis situations, applying Biblical counseling principles, and utilizing counseling techniques; and
- 8) demonstrate competency in interpersonal relationship skills and in dealing with the varied visitation situations of the pastorate.

PROGRAM IN TEACHER EDUCATION

Ted D. Nickel, Director

Purpose

The Teacher Education program prepares graduates who are qualified to teach in Christian, public, and missionary children's schools. It is distinctive in its focus on the development of teachers who can address the moral and spiritual needs of learners as well as their intellectual, social, and physical needs. The profession of teaching is considered a Christian ministry which demands whole-hearted commitment to the Lord, to young people, and to academic excellence. This implies that the prospective teacher should have a personal assurance of a divine call to enter and advance in this important profession.

Objectives

The objectives of the program are to prepare students who

- 1) understand and apply the theoretical and practical knowledge of the educational process;
- 2) integrate the concepts, principles, and values learned in Biblical and general studies with their personal and professional views;
- 3) think analytically and creatively in relation to issues and instructional procedures in education;
- 4) demonstrate a servant-leader attitude in their relationships with students, parents, colleagues, and administrators;
- 5) plan and organize long range strategies for meaningful learning experiences;
- 6) manage learning activities which are appropriate to the maturity level of the student;
- 7) communicate subject matter and instructional procedures effectively in oral and written form;

- 8) diagnose student learning difficulties and plan procedures to correct them; and
- 9) demonstrate competencies which show potential for continuing education.

Students who complete the baccalaureate programs and pass the state-mandated basic skills competency test qualify for a teaching certificate from the Indiana Department of Education.

Since qualifications for teaching licenses vary among states, the student is advised to refer to the certification requirements of the specific state under consideration.

The Bachelor of Music Education degree program is described in the "Program in Music" section of this catalog.

PROGRAM IN WORLD MISSION

Stan W. Nussbaum, Acting Director

Purpose

The purpose of the World Mission program is to provide both degree and non-degree study and experiences which equip persons for cross-cultural ministry. For World Mission majors the program will lay the foundation for constructive ministry during the first few years of cross-cultural service, after which the individual is encouraged to build on this foundation by pursuing graduate studies in an area of specialization. For all students at the institution the program will make exposure to the world mission of the church an important part of the total educational experience. This is appropriate in light of the Great Commission (John 20:21), the heritage of the institution, its relationship with the Missionary Church, and the challenge of a world in which billions of people have not heard the gospel of Jesus Christ.

Objectives

The objectives of the B.S. and B.A. programs in World Mission are to produce graduates who can cope with, learn to thrive on, and be effective in cross-cultural ministry. Such people will be able to

- 1) explain their conviction that Jesus Christ and the Bible are relevant for people of all cultures;
- 2) perceive all theological systems and all descriptions of religious experience, including their own, as culturally limited or adapted phenomena;
- 3) establish and maintain good working relationships with a mission organization;
- 4) serve cheerfully and effectively in partnership with Christians of another culture;
- 5) adapt positively to the linguistic and life-style demands of life in another culture;

- 6) listen sensitively and intelligently to persons in order to learn to think within another worldview;
- 7) apply their Biblical and theological studies to the problem of contextualizing the gospel so that persons in another culture place Jesus Christ in the center of their worldview;
- 8) analyze and discuss issues in the field of missiology relevant to their type and place of service; and
- 9) recognize and meet their own need for continuing development through formal and informal educational opportunities.

Students who are not World Mission majors will meet some but not all of these outcomes, depending on their previous education and experience, their career goals, and their selection of missions classes. For all students, regardless of major, the objectives of the program are to produce servant-leaders who:

- 1) orient their entire lives toward encouraging others to recognize Jesus as Lord; and
- 2) demonstrate an informed concern about the cross-cultural dimension of the global mission of the church through continuing prayer, giving, and other forms of support.

- 1) Take a concentration of courses in another professional area such as pastoral ministries or Christian education;
- 2) Study at an approved foreign and/or secular university for one or two semesters and transfer credit back to FWBC with a minimum of difficulty in meeting degree requirements;
- 3) Earn up to 12 hours of credit in missions research and practice through one or more structured, cross-cultural experiences;
- 4) Transfer into the program with minimal loss of credit hours earned in other subjects prior to the experience of God's call to prepare for missionary service;
- 5) Broaden his/her education in other preferable ways.

One-Year Concentration in World Mission for Special Students

There are numerous people who anticipate or have begun missionary service and are aware of a need for missionary training but do not fit readily into any of the existing degree programs. Educational level, experience, personal circumstances, and age may not allow some to pursue a four-year bachelor degree program, though they are not ready for graduate level training in missions. Some may want to take more missions courses than are available at the institution where they are currently developing a skill they anticipate putting to use in a missionary setting. For these types of people the World Mission program offers a one-year concentration of courses (listed below).

There is no diploma or certificate for completion of this concentration of courses, and the special student may deviate from them at any point. The list is simply included here to provide information and guidance to a student or a mission board wanting to know what is possible to study within a two-semester time frame. A one-year concentration is decidedly inferior to a four-year major, but at the same time it is decidedly superior to no missions training at all.

Missionary Nursing

A number of possible options are presented to the student wishing to combine missions training at Fort Wayne Bible College with medical training at another institution.

- 1) A four-year B.S.N. at another institution followed by a one-year concentration of missions studies at FWBC or a one-year concentration preceding medical studies (see heading, "One-Year Concentration in World Mission for Special Students"). This does not lead to any degree or diploma from FWBC.
- 2) A three-year nurses' training program leading to a diploma and an R.N., followed by 2 to 2½ years at FWBC leading to a B.S. in World Mission.
- 3) A two-year associate degree in nursing followed by 2 to 2½ years at FWBC leading to a B.S. in World Mission.
- 4) A one-year nurses' training program leading to an L.P.N. followed by three years at FWBC leading to a B.S. in World Mission.

Some of the FWBC courses may be taken concurrently with or prior to nurses' education,

and other variations of the program may be possible depending on the type of medical work anticipated and the extent of medical training received. Applicants may send their transcripts for evaluation and discuss options with the Program Director.
